

SINCE 1991

Favorable Financing, Instant Savings

What if you could instantly lower your energy costs, enhance your facilities, upgrade your property value, and accomplish it all while spending less than what you currently pay for energy usage? AEC can make it happen. We help our clients secure affordable financing at terms tailored to their preferences

– and tap into any available state or federal grants and aid. For many clients, the monthly cost of the loan and their new, lower energy bill equal less than they paid before working with AEC.

How Much Can You Save With AEC?

Our solutions reduce our clients' energy costs by an average of 20-70% – which is typically enough to fund the capital improvements with **no up-front costs**...an investment that **literally pays for itself**.

TRUSTED EXPERTISE. PROVEN SAVINGS.
